

Workshop on Block Chain Technology
Program Convener: Ajit Karki
Assistant Professor
ICFAI University, Sikkim

About the workshop:

Block chain Technology:

A block chain, originally, is a growing list of records, called blocks, which are linked using cryptography. Each block contains a cryptographic hash of the previous block a timestamp, and transaction data (generally represented as a Merkle tree).

Objective of the program:

According to Program Convener, Mr. Ajit Karki, Assistant Professor, the main objective of the awareness programme is to give an early exposure to the students in new advance technology areas that will benefit them in future and in their career.
